

# Discover the Transformative Power of Art and Community at Project Row Houses

## An to Project Row Houses

Nestled in the historic Third Ward neighborhood of Houston, Project Row Houses is a unique urban revitalization project that has been transforming lives through art and community engagement for over three decades.

Founded in 1993 by a group of artists and community activists, Project Row Houses has become a vibrant hub for creative expression, social justice initiatives, and economic empowerment.

The centerpiece of Project Row Houses is a row of 22 shotgun houses that have been transformed into exhibition spaces, studios, and community gathering places. These houses provide a platform for local, national, and international artists to showcase their work and engage with the community. Art exhibitions at Project Row Houses cover a wide range of mediums, including painting, sculpture, photography, and mixed media installations, all of which explore themes of social justice, identity, and community.
