# Sir Isaac Newton (1642-1727)

English scientist and mathematician famous for his discovery of the law of gravity and the three *laws of motion*.

He published them in his book Philosophiæ Naturalis Principia Mathematica (mathematic principles of natural philosophy) in 1687.

Today these laws are known as *Newton's Laws of Motion* and describe the motion of all objects on the scale we experience in our everyday lives.
